Westpac  
Yancoal

### WORKSHOP CONTENT:

#### Session 1:

This is your opportunity to share the daily challenges you face in managing procurement capabilities. Highlight both the positives and pain points within your current learning and development programs. Join your peers in an in-depth exploration to uncover the root causes of these issues and prioritise actionable opportunities for improvement.

#### Session 2:

As a team, we will collaboratively transform challenges and problems into well-defined opportunity statements. Through structured brainstorming sessions, we will identify and develop practical, dynamic solutions that are perfectly aligned with your organisation needs.

### ACTION ITEMS:

- Bring your current skills framework/capability standards for the workshop activities
- Nominate/Invite your L&D lead and/or Program Manager to join
- Come ready with your ideas for the future of procurement!

**Jade Cusworth**

*Learning and Development Manager, Procurious*

Jade is a passionate Learning and Development Management with over 14 years' experience in delivering high quality learning, development, education, and training programs in line with organisational objectives.

With a keen interest in adult learning and learning design principles, Jade has designed and delivered educational programs ranging from Employee Induction through to Executive Leadership.

Career achievements include winning RMIT Teacher of the year and the Vocational Education Inclusion Award for her expertise in inclusive and accessible teaching methodologies.

**Muks Syed**

*Director, Product and Operations, Procurious*

Muks Syed is a passionate product leader with proven experience of over 16 years delivering results for small business and large enterprise clients, including Fortune 500 and top ASX companies like Dell, JPMorgan Chase & Co, Australian Super, NAB, CPA and more.

With his experience he has demonstrated a strong business acumen with versatility and an innovation mindset. Muks is known for his ability to integrate user experience, design thinking, product marketing, customer & client success, technical solutions, project management, and client relationship management, as well as provide leadership to a wide range of internal and external stakeholders.
